

Strong Interest Inventory® Assessment – identifies occupations, majors, values, work and learning style, and activities based on student’s interests.

- Designed for ages 16 and up
- 60–90-minute session required with certified Strong® coach

Package and pricing:

Strong Interest Inventory assessment: **\$375**

You get:

- A URL link with instructions to take the Strong Interest Inventory® on secure Strong site. Assessment taken on your own no later than 48 before booked assessment appointment so assessor can evaluate and prepare for coaching session.
- Minimum 60–90-minute session with certified Strong® Coach.
- A Complete interpretation of your personalized results with detailed explanation and counseling of all 6 report sections; General Occupational Themes, Basic Interest Scales, Occupational Scales, Personal Style Scales, Personalized profile Summary, and Response summary. Additionally, a detailed explanation and counseling of the College Profile report section (if applicable).
- A zoom recording of the coaching session along with “action items” client can do to put insights learned to use.
- One, 1/2hr follow up session with client and/or parents to ensure all information was understood and further discussion on action items client can do to best utilize the insights learned. Session will be scheduled for a date and time convenient for the client (typically 1-4 months from initial coaching session).

Additional follow up sessions: For parents and/or clients can be purchased for **\$150/hour or \$75/half hour.**

Expected Outcomes:

- Discovery of all **options/paths** open to explore. Identification of potential occupations and majors, values, work and learning style, and activities based on student’s interests. Results can reveal

occupations they've never thought of that align with who they are, confirm a path they've already identified that in fact aligns with who they are, or often both.

- **Self-Awareness.** Clients gain the needed **confidence** to make the best choices for their education and career paths based upon what interests and motivates them.
- Review of resource for student to use to explore suggested and related occupations and get in depth information for further consideration of majors and career path exploration (O*NET® website – free and linked to the SII report)
